

# INTRODUCTION

The Science Based Targets initiative (SBTi) is a **global body** enabling businesses to set **ambitious emissions reductions** targets in line with the **latest climate science**. It is focused on accelerating companies across the world to **halve emissions before 2030** and achieve **net-zero emissions before 2050**.

 Science Based Targets

# SBTi - PATHWAY DEVELOPMENT (DATA SOURCES)

Carbon Budget

According to the IPCC estimate

Emissions Scenarios

Set of emissions scenarios that are considered plausible, credible, objective and consistent

Companies set their emission reduction targets

Companies can choose Sectoral Decarbonisation Approach (SDA) / convergence approach

Target Validation

SBTi follows GHG Protocol and data quality expected
